

Look at the pictures of the rainforest layers below, and read the descriptions of the four layers of the rainforest. Match each rainforest layer picture with its proper description. Write your answer in the box next to each picture.

A

- Has shorter, younger trees
- Receives about two percent sunlight

B

- Birds and insects live here
- Receives more sunlight than other layers

C

- Covered with decomposing leaves and humus
- Many fungi and insects live here

D

- Traps the most water and sunlight
- Produces the most food for forest creatures
