

Mauna Loa Lava and Plants

Follow the instructions to complete the activity.

NAME

DATE

When lava cools, plants may soon begin to grow on the newly created land. At Mauna Loa, two kinds of plants commonly grow on cooled lava areas. Match the pictures below to the two kinds of lava, and the two common plants that grow on cooled lava in Hawai'i.

A

Silversword

B

Ferns

C

Pahoehoe

D

A'a
