

## Map Activity Follow the instructions to complete the activity.

NAME	
DATE	

Using the information on page 13 of the book, fill in the blanks with the name of the studios at which CGI artists work in each location. Use information found in the book and research online to briefly explain why each location is important or unique.

### **Timeline Activity**Follow the instructions to complete the activity.

NAME
DATE

Number the events below in the order they would appear on the timeline. Write the number in the box beside each event.

The first feature-length CGI animation, Toy Story, is released. It was later added to The United States National Film Registry for being the first of its kind.

The Royal Institute of Technology in Sweden creates a 49-second animation of a car traveling down a highway.

James Cameron creates an entire CGI world with *Avatar*. It remains the world's highest grossing film for 10 years.

A new adaption of *The Lion King* is made using new, incredibly realistic CGI technology.

Animators of Disney's *Frozen* create a program called the Matterhorn to animate snow properly.
