

The Zodiac Chart

Follow the instructions to complete the activity.

NAME

DATE

Complete the zodiac chart below by matching the numbered symbols to their correct astrological sign.

Make Your Own Constellation

Follow the instructions to complete the activity.

NAME

DATE

Groups of stars that form patterns in the night sky are known as constellations. Constellations can be people, animals, or objects. Look at the stars in the night sky or find a star chart online. Based on what you see, create your own zodiac constellation by imagining a picture created by a grouping of stars. Using the space below, draw the stars that make up your constellation using dots. Then, connect the dots and draw the person, animal, or object around the dots.

Name your constellation and write a brief description of it below.

Using information found in the book, verify whether the following statements are true or false. Check your answers in the book. List the page number where you found the information beside your answer.

Statement 1

Scientists have identified a total of 98 constellations.

True
